Seoul

Counting days, I'm walking backwards
Shameless truth took me flying
Eat my pills, I'm sure it won't break me apart
I hold my head up

Sweetest dream I'm cured, a work of art
Love can change, why wouldn't you recall
The golden chance is based on bigger things
I will lay my eyes on

Far away now, I feel the distance
Take me with you unknowing
You can show me how to be in control
In time I'll catch up

This is real I'm sure words will last
Love will fade, why couldn't we resolve it
The golden chance is based on bigger things
I will keep on chasing

Just let me go with it
I can show you how much I'll try
Let me join and let's not give in
Cheating time
Don't think that we fit that case
Yeah, the first move was to settle
Screaming the joy of my life
Now I'm ready
I think the time has come

Though I'm fronting
The greatest wall, how can I climb?
I need to be strong, how can I defend myself
Carry on

Alive

I swear to you all
My state of mind
The future is here
It feels good to be alive

Collecting the parts
I hang them up
I know my hands are shaking
But it's worth it to bring it on

I'm waiting for you
Believe in the same lost world as I do
I'm waiting for you
A blast in my dreams
Im waiting for you
You're soaked in the crack that goes straight Between me and you

I swear to you all
My state of mind
I won't disappear
Cause it feels good to be alive

I draw on my wall to place my fear
There's a mountain in the making
I feels good to climb

I'm waiting for you
Believe in the same lost world as I do
I'm waiting for you
A blast in my dreams
Im waiting for you
Believe in the same lost world as I do
I'm waiting for you
You're soaked in the crack that goes straight Between me and you

Eternal History

I feel like I reach you
Eternal history
I'm waiting inpatient
I believe you are in need of me

I long for the strength of the river
So wild and clear
I've lost my stand
The wave break my fear I fight in silence
Now I believe
There will never be an end

Betrayal on the white sheets
Don't you stand in my way
It's a battle of my past
Come on
Don't you stand in my way

You know it feels like
I need you
Another mystery
I hate it , I fake it
I believe you are in need of me

I long for the strength of the river
I've lost my stand
The wave break my fear
I fight in silence
Now I believe
I will never be alone
I hate to be alone
I think I'm going home
Now I believe

Grace

Giving you a call
There's a fool inside of me
I let you slip away
Cause you're more than I can see
Playing you a verse
There's a dream that lives indeed
The bridge is burned
Love will hurt

I wanna be your grace
I salute you
Running into your space really fast
I wanna be your grace
I salute you
Don't you understand my choices?
It makes me feel alone

Giving you more
Only seconds away from the truth
When love grows too fast
My words will never reach you
Playing you a verse
There's a need driving me
The bridge is burned
Love will hurt

Sun

Close to see
never been thinking of what you know about me
Making a maze in my mind
Never been thinking of what you like about me
Save me a place in your heart

I couldn't see it
I never get the time to be it
Be cool around the sun
Couldn't see it
I Never get the chance feel it
Be cool around the sun

A part of me
Trying to make sure I'm strong enough to be
Taking the steps to your world
Never been thinking of what you feel about me
Making a maze in my mind
